Re: HB2485; Employer ability to increase their individual amortization period

Gentlemen, an unintended, yet possibly beneficial, consequence of the emergency clause attached to HB2485 and the unanticipated amendment to SB1442 affecting the amortization period of the unfunded liabilities is that an employer has the ability to choose a longer amortization period now and have it applied to their June 30, 2016 actuarial valuation, thereby possibly lowering their fiscal 2017-18 employer contribution rate. This is not being recommended by the Board of Trustees, but is an option to provide short-term relief for those employers who may need it.

Unfortunately, that does not give us much time to act in the event an employer does want to pursue that option now. As such, I have asked our actuaries to calculate a revised employer contribution rate based on a 30-year amortization period for each employer. This will facilitate an efficient and speedy process to help them make a decision, but what we will not be able to do in this short period of time is to provide any individual analysis on the effects of a longer amortization period, including dollar costs, provide the rate for a period different than 30 years or make individual presentations to the governing body in their efforts to decide.

Therefore, I am seeking your help to communicate this message to your respective groups and our limitations placed upon us right now. I am providing the rates, a standard resolution to be used by their governing body and a memo from our actuaries outlining the pros and cons of choosing to extend the amortization period.

In order for their fiscal 2017-18 rate to be revised, the only two opportunities for the Board of Trustees to hear these requests are at the May 31 and June 28 meetings, where we must receive the written request with the adopted resolution one week prior to each meeting date.

If an employer is in need of this relief and can afford to wait, it is recommended they do in order to take a more measured approach to this decision. For the June 30, 2017 valuations to be released in the fall, we will be able to provide more data to help employers make a more informed decision while they discuss and digest the information over a longer period of time.

Re: **Pros and Cons of Lengthening the Amortization Period**

This memorandum explores the pros and cons of lengthening the amortization period for legacy Public Safety Personnel Retirement System (PSPRS) and Corrections Officer Retirement Plan (CORP) plans. The current remaining amortization period is 20 years. HB 2485 allows employers to make a one-time request of the Retirement Board to lengthen the amortization period to 30 years.

Pros:

- By lengthening the amortization period, the same debt (unfunded liability) is paid off over a longer period of time, thereby decreasing the initial total contribution requirement.
- Significant spikes in employer contribution rates for pension funds could wreak havoc on budgets and budget planning. Lengthening the amortization period could restore a modicum of predictability when budgeting.

Cons:

- Lengthening the amortization period increases the time during which the plan experiences so-called “negative amortization” – during which employers effectively pay only part of the interest and no principal on the debt, so the unfunded liability actually grows before decreasing.
- Pension funding becomes costlier over the long run by lengthening the amortization period due to additional interest that employers must pay on their amortized portions.
- When lengthening the amortization period, deferring recognition of pension costs that have already occurred inappropriately shifts these costs to future taxpayers (i.e. violating generational equity). Borrowing through the pension funds is not as transparent to taxpayers and works to hide rapidly mounting costs from them.
- Lengthening the amortization period may destabilize the pension system to the degree it undermines the amount of assets available to the fund for future benefits.
- Overfunded plans could have an increase in contribution amounts when the amortization period is lengthened.

A graphical depiction of the impact of lengthening the amortization period under level percent of payroll financing follows.

RESOLUTION TO REQUEST INCREASED AMORTIZATION PERIOD

WHEREAS the _____¹ (“Employer”) employs members (“Members”) of the Public Safety Personnel Retirement System (“System”);

WHEREAS the System’s enabling legislation, A.R.S. §§ 38-841 *et seq.*, requires Employer to make contributions sufficient under actuarial valuations to meet both the normal cost for its Members hired before July 1, 2017 plus the actuarially determined amount required to amortize the unfunded accrued liability on a level percent of compensation basis for its Members (or participants as defined in § 38-865(7)(a)) over a closed period of not more than 20 years beginning July 1, 2017, as established by the System’s board of trustees (“Board”), *except* in the event Employer makes a one-time election (an “Election”) to request that the Board use a closed period of not more than 30 years, so long as certain conditions are satisfied;

WHEREAS to make a one-time Election to request that the Board apply a closed period of up to 30 years for the amortization of liability attributable to its Members, the Employer must (i) adopt a resolution (“Resolution”) requesting the longer amortization period and (ii) specify the actuarial valuation date for which the new amortization period is to begin, which date shall commence, at Employer’s election, on the System’s fiscal year end (June 30) immediately before or immediately after the date of such Resolution;

WHEREAS it is understood by the Employer that the employer contribution rate reflecting the chosen amortization period will be effective July 1 in the year following the chosen actuarial valuation date.

WHEREAS as a further condition to make the one-time Election, the Employer must submit a written request for the longer amortization period, along with its adopted Resolution, to the Board’s administrator (“Administrator”);

WHEREAS Employer wishes to make an Election to increase its amortization period for its Members under the System to _____² years;

WHEREAS Employer has elected to specify that the actuarial valuation date for which its new amortization period shall begin shall be the System’s fiscal year end (June 30) immediately _____³ the date of this Resolution;

WHEREAS Employer believes that, increasing the amortization period for its Members under the System, is in the public interest and the interest of its Members,

NOW THEREFORE, BE IT RESOLVED, that:

1. The period for amortizing the liability attributable to the Employer’s Members under the System shall be increased to _____⁴ years;
2. The aforesaid increase in said amortization period shall begin as of the System’s fiscal year end (June 30) immediately _____⁵ the date of this Resolution, which increase will be reflected in the employer contribution rate to begin July 1 of the year following the chosen actuarial valuation date; and
3. Employer shall submit a written request for the above specified longer amortization period to the Board’s Administrator.

As adopted by the majority vote of Employer at its open meeting held on _____, 20_____.
