Chief John Feddema
Central Arizona Fire and Medical Authority
8603 E. Eastridge Drive
Prescott Valley AZ 86314

On behalf of the Board of Directors of the Yavapai Hills Home Owners Association, thank you to everyone at CAFMA for responding to the small wildland fire adjacent to AZ-69 on the morning of June 27. We appreciate the speed with which the response occurred, which, given the weather conditions, undoubtedly prevented this fire from spreading further toward the homes in Yavapai Hills.

In the end, this fire was resolved quickly due not only to your quick response, but also to the mitigation project that was completed by the DoC Perryville crew just over a month before. We benefited from good timing and some luck, and also from the thoroughness of that May 23 mitigation project.

You might say the incident was good practice for the larger events that we know will eventually happen, but more than that, it illustrated again how important wildland mitigation is. We are using this experience to further encourage our residents to thin their vegetation and harden their homes and buildings.

Subject: CAFMA Resources on Billy Fire

Dear Chief Feddema,

On behalf of the Central West Zone Type 3 Incident Management Team, I would like to express our sincere thanks and appreciation for the exemplary performance of the CAFMA resources that were assigned to the Billy Fire on the Tonto National Forest while our team was managing it. CAFMA heavily supported the CWZ Team during this incident and while every one of your personnel exceeded expectations there were two who we felt should be acknowledged individually.

Telecommunications Specialist Dave Legge has come out to help the CWZ Team with communications over the years but this is the first year he actually rostered with us. Dave's unique skills and experience helped us to create a repeater network that tied into the Tonto National Forest radio system in some of the most complicated terrain that Arizona has to offer. Because of his efforts we were able to ensure firefighters had adequate communications to carry out their operations in the safest possible manner. Without this capability we may have been forced to order a Complex Incident Management Team for no other reason but the communications.

Captain Dan McCarty became the Incident Commander of complex Incident Within an Incident (IWI) while performing his duties as a Task Force Leader trainee. Captain McCarty's knowledge of the IWI protocols on wildland fires as well as his professionalism were key in managing an incident that required five patients to be flown to local hospitals. Large multi-patient incidents are not very common in the wildland arena and can be very challenging Captain McCarty's efforts were key to a positive outcome.

Station 50, A Shift received thank you notes. A copy of the note is attached. Chris Pena, Kris Smith and Jacob Smith each received a note.

As well a \$100 donation was made. The lady was so very appreciative of their help and service.

Thank you for coming over

better, we greatly appreciate
you.

DIVISION REPORTS
REPORTED TO THE
CENTRAL ARIZONA FIRE AND MEDICAL AUTHORITY
BOARD OF DIRECTORS

Chief's Report

By Interim Fire Chief Feddema

This month highlighted both the progress of our long-term initiatives and the exceptional daily work of our personnel. From advancements in staffing and scheduling to outstanding incident response, interagency recognition, and the critical support of our dispatchers, I am proud of the professionalism and dedication demonstrated across all divisions of CAFMA.

I also want to thank the Chino Valley Fire District and Central Yavapai Fire District Boards for their time and consideration throughout the recent Fire Chief recruitment process. Work is underway with legal counsel to prepare a draft employment contract for the Board's consideration at the August meeting.

Personnel Development

Firefighter Caden Burch has successfully completed the Acting Captain task book, and Firefighter Aponte has completed all requirements for the Acting Engineer position. Thank you to everyone who supported these accomplishments, and congratulations to both.

Incident Response Highlight – Garage Fire, Prescott Valley

On August 17, 2025, CAFMA crews quickly contained a garage fire in Prescott Valley, preventing it from spreading into the main residence. Two occupants and their pets evacuated safely. One adult sustained minor burns, was treated on scene, and not transported. This incident demonstrates the professionalism of our crews and their swift actions to protect life and property. CAFMA thanks the Arizona Crisis Team, American Red Cross Arizona, Prescott Valley Police Department, APS, UniSource Energy, and the Town of Prescott Valley for their assistance.

Wildland Response

CAFMA continues to support wildfire response across the region, with seven personnel assigned to the Billy and Washington Fires in Arizona and two deployed to the Verdera Blanca Fire in New Mexico. The Central West Zone Type 3 Incident Management Team commended CAFMA for exemplary performance on the Billy Fire. Telecommunications Specialist Dave Legge was recognized for establishing a complex repeater network that ensured safe communications in difficult terrain, while Captain Dan McCarty was praised for effectively managing a rare Incident Within an Incident involving five patients flown to area hospitals. These recognitions underscore CAFMA's commitment to interagency cooperation and the professionalism of our personnel in complex wildfire operations.

Federal Funding Update

DIVISION REPORTS

REPORTED TO THE
CENTRAL ARIZONA FIRE AND MEDICAL AUTHORITY
BOARD OF DIRECTORS

CAFMA has cleared another hurdle in the Congressional Appropriations process. Funding for new ambulances has been approved by the Senate Appropriations Committee and will be included in the draft appropriations bill. Two steps remain: securing inclusion in the final bipartisan bill and passage of the final appropriations bill by Congress. The process is anticipated to conclude by October.

Special Districts Roundtable

On August 19, 2025, CAFMA hosted the Prescott/Prescott Valley Area Special Districts Roundtable at our administration facility, bringing together local special district leaders, representatives from the Arizona Special Districts Alliance, and congressional staff from the offices of Congressman Eli Crane and Senator Ruben Gallego. Discussions focused on federal priorities and policies affecting special districts, including H.R. 2766 (federal recognition of special districts), rural development needs, water and land management, hazard mitigation, and local water infrastructure for firefighting. The event concluded with a CAFMA facility tour, with special thanks to Captain Ben Roche for helping to set up the event.

Communications Recognition – Prescott Regional Communications Center (PRCC)

On the evening of August 16, PRCC dispatchers managed seven calls in just over an hour (19:44–21:00), including two Level 2 vehicle accidents, two separate helicopter transports, and a “Last Call” for Chief Lucas.

Throughout these incidents, the PRCC team remained professional, effective, and supportive of our operations. Their outstanding work ensured multiple complex incidents were coordinated smoothly.

Special thanks to PRCC dispatchers for their professionalism and continued partnership in supporting CAFMA crews and the communities we serve.

Labor Management

CAFMA continues to work collaboratively with labor leadership on matters affecting staffing, scheduling, and operational priorities. At present, we are reviewing documents related to the Meet and Confer process and will be working to bring this before the Board for consideration. This step reflects our shared commitment to strengthening labor-management relations and ensuring that future agreements are transparent, well-structured, and aligned with the organization’s goals.

Interagency Collaboration – Prescott Fire Department

This month, CAFMA and the Prescott Fire Department held our quarterly Command Staff Meeting to coordinate on operational priorities, training opportunities, and interagency support.

DIVISION REPORTS
REPORTED TO THE
CENTRAL ARIZONA FIRE AND MEDICAL AUTHORITY
BOARD OF DIRECTORS

These meetings strengthen communication, enhance alignment across both agencies, and ensure we continue to provide seamless service to the communities we jointly serve.

Looking Ahead

- Completion of the Alternative Work Schedule Committee's final report and recommendations.
 - Ongoing monitoring of staffing impacts at Stations 53 and 61.
 - Continued coordination with labor leadership on long-term staffing and scheduling objectives.
 - Monitoring federal appropriations process for ambulance funding.
 - Continued recognition of outstanding incident response, interagency support, wildland deployments, and communications excellence.
-

We appreciate the continued support of the Fire Board as we work to advance agency goals through strategic planning, investment in personnel, health and safety programs, and external funding opportunities.

Administration **By Assistant Chief Rose**

Below are the reports for each division within the Administrative Section of CAFMA:

ADMINISTRATION

Annexations and Fire Protection Agreements

As a reminder, if everything goes *perfectly*, each annexation and fire protection agreement processed represents roughly 2 hours of work. Through July 31, 2025, we have processed 14 annexations and 42 fire protection agreements.

- CHV Annexations: 0
- CEY Annexations: 0
- CEA FPAs: 8

Records Requests

Depending on the nature of the request, fulfilling a records request from beginning to end can take from as little as 30 minutes up to numerous hours to complete. Of special note for *public records* requests, we have one that is still in process, as it is very broad in nature. So far, staff have spent 73 hours on it, which does not include our attorney's time to review and communicate questions, concerns, and necessary redactions.

Through July 31, 2025, we have received and answered 170 records requests:

- EMS: 3
- Environmental: 2
- Fire: 2
- Incident: 1
- Public: 5

Ride-Alongs and Community Event Requests

Admin's part in these community-facing, operations-centric activities can usually be completed in 30 minutes or less. Through July 31, 2025, we have received and processed 66 community event requests and 112 ride-along requests.

- Ride-Along 8

COMMUNITY RELATIONS

We held our first meeting for the CAFMA website redesign, and it went very well. We expect to have a timeline for the site's launch in the near future. We are still in progress on the eight-part EMS video series and hope to have a more detailed update to share next month.

Work is underway to develop a CAFMA Citizens' Academy. We're grateful to our public safety partners and our city and town colleagues for sharing details about their own academies to help us get started.

Adam is nearing completion of his media b-roll project. For reference, b-roll refers to supplemental video footage that can be used alongside interviews, narration, or news stories to give visual context. We rely on b-roll frequently for our own video projects and when providing news outlets with resources. Adam is also preparing to work with the Recruit Academy again in the coming weeks. Big thanks to Human Resources for inviting Community Relations into the onboarding process to introduce ourselves and the division.

Recently, Battalion Chief Postula appeared on Fox10 regarding the Saddleview/Prescott Ridge wildfire. He did an outstanding job representing CAFMA, and we appreciate the support from our team and media partners.

On the training front, Chief Merrill is reaching out to Yavapai County Emergency Management to explore options for Public Information Officer (PIO) basics classes, as DEMA's offerings have been put on hold for an unknown period of time. With PIO development included in our Strategic Plan, we're working toward a solution.

FINANCE

The Finance Division has been working with Technical Services to begin the move to the new Tyler Technologies platform. This will be a slow process with the goal of having the General Ledger, Budgeting, and Accounts Payable modules implemented by July 1, 2026. The first step is completing a new Chart of Accounts. The go-live date for the Payroll module is targeted for January 2027. While this transition will increase the workload of Finance significantly, we are confident that the benefits will create significant efficiencies within the division.

Each year in August, our annual audit begins. Finance staff have been busy completing payroll accruals, accounts payable accruals, accounts receivable accruals, and compensated absences. This process will continue to run through November/December of this year.

Invoice processing for off-district incidents continues to be significant as a steady stream of CAFMA employees continues to accept off-district assignments. Additionally, the receipt of ambulance revenue continues to increase at a steady pace as we are working on refining our revenue recognition process.

PREVENTION

During June, the Prevention Division opened 15 deficiencies and closed 28 within The Compliance Engine, resulting in an overall compliance rate of 90%.

Training and professional development continue to be key priorities. Tirpak completed an advanced arson class in July. Inspector Clark and O’Neil have been signed up for Fire Investigator III. Inspector Madden and O’Neil are signed up for the Fire Death/Arson Investigations & Prosecutions class. Inspector Clark has completed all tasks and is ready to promote to Fire Inspector III.

Operational activity remains consistent. The division conducted 183 fire inspections, 77 construction inspections, and 3 inspections related to special events. 3 Fire investigations were initiated in June. The team also completed 81 plan reviews, installed 13 Knox Boxes, and participated in 44 meetings, including regional Fire Marshal meetings. The Prevention Division has completed 20 property verifications/Defensible Space surveys. Public education remains a core function, with two outreach events conducted during the month.

In preparation for future code updates, the team is currently developing the second draft of the 2024 International Fire Code (IFC) adoption. The target implementation date is the first quarter of 2026. Prevention is exploring a new software to aid with defensible space inspections. The product is called Fire Aside. We will be exploring a software share with the Prescott Fire Department.

As always, feel free to contact me if you have any questions.

Planning and Logistics **By Assistant Chief Barnes**

August marks my 5th month in Planning and Logistics. I am grateful to the managers and their staffs for their dedication and commitment to the mission of the organization. I continue to be impressed by their skill and professionalism. Please see their comments below.

Facilities Division:

Admin Suite C

Progress on the Admin Suite C project is moving along smoothly. Sheetrock installation in the gym has been completed. Painting is scheduled to begin the first week of August and is expected to be finished within that same week.

Once painting is complete, Brandon will proceed with:

- Installing electrical outlets
- Hanging the interior door
- Mounting the ceiling fan
- Installing rubber matting on the floor

Our goal is to have equipment moved back into the space by the end of the month.

Station 63 – Generator Issue

The generator issue at Station 63 has been successfully resolved. Multiple transfer tests have been conducted, and the generator is now fully operational and back in service.

Station 59 – Apparatus Building

We have received the necessary permit, and construction on the apparatus bay is scheduled to begin around August 11. The general contractor will provide a more detailed timeline once subcontractor commitments and schedules are finalized. We are excited to finally move this project forward.

CARTA Bay Build-Out

Work on the CARTA Bay build-out is progressing well. The additional space has been laid out, and framing is complete. As the project evolves, new ideas and adjustments are being incorporated to maximize the use of the space.

Brandon has been temporarily assigned to CARTA while awaiting painting completion at Admin. He will return to Admin briefly before transitioning fully to CARTA for the remainder of the project, which is expected to take approximately 3–4 months.

Routine Maintenance

Routine maintenance remains steady. Since July 1, a total of 22 work orders have been completed. Important to point out that Andrew continues to be observant while he is at one of the many facilities he is tasked to maintain, frequently addressing issues proactively even outside of formal work orders. He and Brandon are such a huge asset to the division.

Fleet Division:

Projects:

NEW WATER TENDERS: Chief Barnes and Fleet manager Scaife recently met with a Truck works representative to go over the build spec of our two tactical water tender builds. The last few weeks have been phone calls and emails with Truck works dialing this build in so that we get exactly what we want for our personnel. Once the build spec is finalized the chassis will be ordered. I will continue to update this build through this monthly report. Our unit that was dropped off in April for the chassis replacement is moving along nicely. We are continually updated on the build with pictures, texts and emails. I will continue to update based on the process.

NEW BRUSH TRUCKS: Progress is still moving along nicely on the second brush truck. We are anticipating a completion date the end of August beginning of September.

NEW TYPE 1 ENGINES: Tentative Pre-Construction meeting late spring of 2025.

NEW LADDER TRUCK: No new updates.

NEW AMBULANCE (RESCUE): We are currently working on setting up a meeting with Garett our salesman for the new ambulances. We will be discussing the build in detail and making any last-minute changes to the build before construction begins.

SCISSOR LIFT: Part of our capital replacement plan was a new scissor lift for our facilities division. The original unit was purchased used because we didn't know how much usage it would see. The unit is in constant use and has started to have parts failures routinely. A new Genie scissor lift was ordered through a local vendor utilizing a government purchasing contract. It should be delivered the end of September beginning of October. The old unit will be kept as a reserve unit for the time being and then be removed from inventory through the normal surplus equipment process.

TECH SERVICES TRUCK: Another purchase this year is a new truck for the Tech services division. This unit has been ordered and should be delivered by the beginning of September. Once outfitted it will go to one of the Radio technicians and their older vehicle will be moved to the I.T. side of the division.

DIVISION REPORTS
REPORTED TO THE
CENTRAL ARIZONA FIRE AND MEDICAL AUTHORITY
BOARD OF DIRECTORS

STAFF VEHICLES: Staff vehicle services are currently caught up. Once the new Fire Chief is in place we will be assigning a vehicle for the position and then making changes to vehicle assignments as necessary.

WILDLAND: The wild land fleet has been busy and currently we have multiple units our of district on assignment. Once returned these units receive a comprehensive safety inspection and are then re-readied for assignment.

MAINTENANCE AND REPAIR: Engines 540, 62 and 66 are in the shop currently for repairs and service with engines 59 and 57 to follow. The new Pierce engines 51, 54 and 62 have been coming in to have UV protective tint installed in the cabs. This tint reduces cab temperature tremendously. In the past most engines were tinted at the factory when assembled. These units did not have the tint installed at that time.

NEW EQUIPMENT: The first of our new Thermal imaging cameras have been delivered to the stations for the crews to become familiar with. We have more funds in the budget this year to help complete the purchase and once that second order is received, we will begin installing these on the trucks. We have also received our first order of the new rechargeable scene lights. These will be making their way onto our frontline engines during the next service interval.

Technical Services Division:

Enterprise Resource Planning Software Upgrade - We have officially begun our implementation and have already had multiple sessions getting the beginnings of the platform configured. This is a huge task for our finance team, who have been doing amazing. So far, we are doing well, though, as expected, is going to be a long road and a lot of work.

Portable Radios - The portable radios approved earlier this year are nearly ready for deployment. We made some changes to how we are managing the radios, and it is looking very promising. They should be in the hands of our operations staff in the next few weeks.

Station Alerting - We are presenting a quote for approval at the August Board Meeting for the budgeted purchase of new station alerting equipment. This modernized station alerting equipment will give new capabilities, reduce response times, and improve conditions for our stations that have multiple crews. Thanks to Tony Frazier for all his work on this.

Billy Fire - Two members of our team, Dave Legge and Ian James, have spent time on the Billy Fire over the past few weeks. The team was originally released in mid-July, but then the fire picked back up and they needed communications setup again. In preparation, Dave and Ian worked together to setup a custom deployable repeater that could be used in addition to their other equipment. As the fire increased in complexity, operations needed to begin suppression activities in a steep canyon that had zero communications. Dave and Ian worked with operations to fly their custom repeater to a remote mountain top and deploy it in time to give the ground

crews communications back to Incident Command. Thanks to Dave and Ian not only for their technical abilities, but for their foresight to come to the incident prepared with additional resources that could be utilized in a pinch. (Pictures of the repeater being flown in is attached)

Resource Management Division:

This last month, the Resource Management Division has been busy with activity! We have been steadily plugging away at hose testing. We have been utilizing some operations personnel on special duty to achieve this. It has been very beneficial to say the least. We have currently knocked out 5 engines and have 4 more scheduled in the next 2 weeks. We should be able to knock out all apparatus by October at this rate.

We have also received in a great deal of new hose to help facilitate this venture! It took some time, but we were able to get them serialized and ready for deployment!

We facilitated the Healing Field volunteers here in our building to rehab more flags for display this September. We set them all up and gave them space to handle this task. We did our best to

DIVISION REPORTS
REPORTED TO THE
CENTRAL ARIZONA FIRE AND MEDICAL AUTHORITY
BOARD OF DIRECTORS

work around them. We feel this is very important to our community so we will always do what we can for them!

Turnout Gear maintenance and inspection is a continuous project. This last month we had 58 sets of CAFMA Turnouts in for cleaning, inspection, and repair. We had 20 sets come in from Prescott Fire. This was actually less than we have had in recent months, but it still accounts for large portions of the Division's time and effort.

Resource Management continues to chip away at the long list of SCBA packs scheduled for their annual flow testing and repairs. This will continue for the next several months.

We were able to get all of the new recruits in to be measured for their turnouts, uniforms and equipment. All except one. We have been purchasing nonstop and working diligently to get everything in for them within the time constraint. We will do everything we can to make it happen!

We worked with the EMS Division to help outfit the new LifePak 35 cardiac monitors. There were several medical supplies needed for each of them. Our teams work very well together and got them done. They will be deploying soon.

We will continue with working on all of our operations personnel's class B uniforms. We are making good progress with completing this!

PS Trax inventories of equipment and assets are ongoing.

All other daily duties and assignments continued normally.

Training

By Training Chief Merrill

First, thank you all for supporting our recruits and trainers during this previous academy. Our sincere appreciation goes to our amazing trainers for balancing work-life, quarterly training and recruit academy, etc. We are ramping-up for another Recruit Academy to start on September 2nd (on-boarding week), then September 8th (joint-academy). The academy will follow the same blueprint as previous, and conclude with graduation on either December 17th, or 18th (details still being worked out with Yavapai College). Starting in 2026, the intent is to only host one-academy per year to allow our trainers a break. We've had to rally for the past few years in order to keep up with attrition, Strategic Plan goals, and the CON.

Moving forward, the Training Division will continue to be progressive and innovative in our approach to providing the most up-to-date and relevant trainings for our personnel. Some of those trainings will include on-boarding new equipment and technology which may result in updated SOGs. For example, we will be initiating a new onboarding process for our new Seek Thermal Cameras this summer, similar to when we in-serviced new Scott air packs, or the upcoming LIFEPAK monitors.

Starting in August, the last Tuesday of every month, we're going to host Tactical Tuesday at CARTA. This will be an open invite to anyone who wants to talk tactics over a cup of coffee, and we will have a different topic each month. August's topic will be Fire Control/Suppression; we will discuss water mapping, air entrainment, exterior fire control, interior fire control, and hose deployment. We will reserve a two-hour time slot, and anyone can come-and-go as they please as this is just an opportunity to have an open dialogue about the topic. September's topic will be Ventilation, and October will be Search/ Rescue, with more topics to be scheduled at a later date if this gains traction.

On August 13th and 14th, CARTA will be hosting a hands-on Advanced Firefighter Workshop. Essentially, we will have three stations set-up (with one being live fire), where we can participate in sets and reps. For example: forcible entry, door-initiated search, window-initiated search, fire control, and ventilation. This is not mandatory, just a fun opportunity to spend a few hours honing in on your skills, and perhaps trying some new techniques in an at-your-pace environment. Since we will be moving to only one recruit academy, we will schedule more opportunities for hands-on trainings throughout the year like the Advanced Firefighter Workshop and Command Labs with tactical simulators for current and aspiring officers.

In addition to this, he shared that while at a communications meeting last week, the Yavapai Tribe Police Chief asked about getting support from our Tech Services Division. The police chief expressed appreciation for division's expertise, highlighting how well they handled programming radios. He noted a feature they implemented: the radio can

be turned either way during an emergency, providing a fail-safe for officers in panic situations. He was especially grateful for the strong support provided by the Tech Services team, despite their police department being a small agency in the community.

Chief Feddema then commended them for providing excellent service to our organization as well as to outside agencies.

- B. Discussion and Possible Approval to Purchase Truck for Tech Services, not to Exceed \$70,000

Chief Barnes stated that our contract with Yavapai County Sheriff's Office (YCSO) previously provided us with a vehicle for use when servicing their equipment; due to changes in the new contract, will are now receiving a subsidy and will put that towards obtaining a vehicle.

Director Reinhardt asked what type of vehicle is needed that costs \$70,000.

Chief Barnes answered that due to the remote areas that need to be accessed, it needs to be a heavy duty with 4 x 4 drive.

Director Sansone asked for clarification on the accreditation process.

Chief Feddema answered that the consultant will help us navigate through the accreditation process. Everything will be reviewed, and we will be given recommendations to do before submission.

Chief Feddema advised that we are in the initial stages of developing the meet and confer document. This points us towards the MOU and moving the organization forward. It was presented by Labor and senior staff is reviewing it, this is an opportunity for the board to view it as well. We want to make sure that when we come to the board for final approval, we are in unison. We are not asking for any decision tonight.

Union Vice President Butler reiterated that this is in the beginning stages. There are a lot of things Labor likes and a lot of additional items they want to look into further.

Clerk Pickett asked if this is something the board could ask to have submitted by the October board meeting.

VP Butler answered in the affirmative. The format of the document being used is accepted across the state by other fire districts and unions.

Modernized Station Alerting

1. Executive Summary

In 2011, CAFMA Technical Services began a project to design a station alerting solution that would not only be cost effective but meet all the needs of the crews in the stations. This included:

- Ramp-Up / Heart saver tone
- Indicator lights
- Dispatch audio of call information throughout station

This solution was developed to meet all requirements at a fraction of the cost. The commercial solutions available at the time were around \$80,000 / station, and our team developed a solution engineered in-house that cost us around \$5,000 of parts and labor / station. This solution has been in place and operational for the last 10 years.

However, as technology continues to move forward it is important for us to look at modern solutions that better fit our current requirements. Over the last few months, Prescott Fire Department and Central Arizona Fire and Medical Authority have been meeting together to discuss modernized station alerting solutions. While multiple options are available, both parties elected to move forward with the **Phoenix G2** system by US Digital Designs. The Phoenix G2 is the industry standard in capability and reliability, and as such it made sense that we would standardize both departments on the same system.

The main improvements we will see with this solution are:

- Automated voice for call information
- Improved response times from immediate station notification
- Custom apparatus selection in bedrooms (where needed)
- Additional alerting signage (Station TV, display in bay)
- Future capabilities
- Positive impact on agency accreditation

As station alerting is a major capital investment, we are taking a multi-year approach to upgrading all CAFMA stations. The stations scheduled for upgrade in FY26 are:

- Station 53
- Station 58
- Station 61
- Station 62

We have prioritized the stations that house Rescue apparatus, as one of the requirements is for crews to be able to select which apparatus they are manning for the duration of the shift.

The total hardware and software costs for FY26 are as follows:

- Station 53: \$80,323.32
- Station 58: \$62,174.17
- Station 61: \$71,588.79
- Station 62: \$57,592.34

The total hardware/software cost for these 4 stations is: \$271,678.62

To be clear, these costs do not include installation. However, as installation costs increased by over 100% from our first quote in March until our latest quote in July, we have opted to have the Technical Services team certified as installers by USDD and to oversee the installation ourselves.

In addition, these 4 stations will likely be the highest cost as they require the additional hardware to allow apparatus selection in the crew bedrooms.

We currently have a budget in FY26 of \$320,000 for this project. ***We are asking for board approval to purchase the initial \$271,678.62 worth of hardware and software so we can begin the installation in these stations.*** Once we have completed these stations, if resources allow, we will add an additional station in the spring of 2026.

These Terms and Conditions, together with any separate agreement you may have with USDD that specifically references these Terms and Conditions (collectively, the "**Agreement**") set forth the entire agreement between the parties relating to your purchase of USDD Products. The Agreement may only be modified by an authorized representative of each party in a signed writing.

1. **ORDERS.** Orders (including any revised and follow-on orders) (each, an "**Order**") for USDD Products are non-cancelable, except as expressly set forth herein, and will be governed by the terms of the Agreement. All Orders are subject to acceptance by USDD and shall include the following information: purchase order number; customer's legal name and billing address; Customer's shipping address; and a list of the Products and quantities for each different type of Product Customer wishes to order. An Order is deemed to be accepted upon the earlier of (i) USDD's written acceptance or (ii) shipment of the Products specified in the Order.

Any conflicting, additional, and/or different terms or conditions on Customer's Order or any other similar instrument are deemed to be material alterations and are rejected and not binding upon USDD. USDD's acceptance of Customer's Order is expressly conditioned upon Customer's assent to the terms and conditions contained herein in their entirety. Customer's acceptance of delivery from USDD constitutes Customer's acceptance of these terms and conditions in their entirety.

Such Surcharges will not be considered a "price increase" as contemplated hereunder and will be effective upon notice to Customer. For avoidance of doubt, Orders placed prior to the Terms and Conditions Effective Date which have not been delivered, including those on backlog or which requested delivery more than twelve (12) months from the date of Order, are subject to Surcharges.

- 5.2.** USDD will invoice Customer, and Buyer agrees to pay for any Surcharges pursuant to the standard payment terms in these Terms and Conditions. If a dispute arises with respect to Surcharges and that dispute remains open for more than fifteen (15) days, USDD may, in its sole discretion, withhold performance or future shipments, or combine any other rights and remedies under this Agreement or permitted by law, until the dispute is resolved. The terms of this Section shall prevail in the event of inconsistency with any other terms in these Terms and Conditions. Any Surcharges, as well as the timing, effectiveness, and method of determination thereof, will be separate from and in addition to any changes to pricing that are affected by any other provisions in these Terms and Conditions.
- 6.** **CANCELLATION AND SUSPENSION.** Any Order resulting from this proposal is subject to cancellation or instructions to suspend work by the Customer only upon agreement to pay USDD for all work in progress, all inventoried or ordered project parts and materials, and all other costs incurred by USDD related to the Order.

Customer agrees to pay all such Taxes and further agrees to reimburse USDD for any such payments made by USDD.
- 8.** **SHIPPING/DELIVERY/RISK OF LOSS.**
- 8.1.** **Delivery Liability.** Delivery and shipment dates for Products are estimates only. Deliveries may be made in partial shipments. - 8.2.** **Future Delivery and Repricing.** USDD will schedule delivery in accordance with its standard lead times unless the Order states a later delivery date or the parties otherwise agree in writing. USDD will accept Orders with a future ship date of up to eighteen (18) months from the date of the entry of the Order. Customer agrees that in the event an Order is scheduled to be delivered more than six (6) months from the date of the entry of the Order, USDD may, in its sole determination and at each six (6) month anniversary of the date of the entry of the Order, adjust the pricing of the Order to conform to the then-current prices of the USDD Products included in the Order. CREDIT, REPAIR OR REPLACEMENT (AT USDD'S OPTION) IS THE SOLE REMEDY PROVIDED HEREUNDER. NO EXTENSION OF THIS WARRANTY WILL BE BINDING UPON USDD UNLESS SET FORTH IN WRITING AND SIGNED BY A USDD AUTHORIZED REPRESENTATIVE.
- 9.1.** **Product Warranty Terms.** Subject to the terms, conditions and limitations contained herein, and unless USDD has otherwise provided an alternative written warranty (in which case the terms of such warranty will control), USDD warrants and guarantees its products will be free from defects in workmanship and materials (collectively, "**Defects**") for 12 months from the date of shipment to Customer ("**Warranty Period**"). This limited warranty does not cover defects caused by normal wear and tear or maintenance.
- 9.2.** **Product Defects.** If a Defect with a Product arises and a valid claim is made within the Warranty Period, Customer shall initiate the RMA process as described below. Upon approval, USDD, at its option, will either (1) repair the Product defect at no charge, using new parts or parts equivalent to new in performance and reliability or (2) exchange the Product with a Product that is new or equivalent to new in performance and reliability and is at least functionally equivalent to the original Product. Any replacement Product or part, including a user-installable part that has been installed in accordance with instructions provided by USDD, shall remain under warranty during the Warranty Period or for ninety (90) days from the date of repair, whichever is longer. When a Product or part is exchanged, any replacement item becomes the Customer's property and the replaced item becomes the property of USDD. Parts provided by USDD in fulfillment of its warranty obligation must be used in the same USDD Fire Station Alerting System for which the warranty claim is made.

9.3. Procedure for Warranty Claims.

9.3.1. Prior to making a Warranty claim, Customer is encouraged to review USDD's online help resources. Thereafter, to make a valid claim hereunder, Customer must contact USDD technical support and describe the problem or defect with specificity. The first such contact must occur during the Warranty Period. USDD's technical support contact information can be found on USDD's web site at <http://stationalerting.com/home/about-usdd/contact-usdd/>. Customer must use its best efforts to assist in diagnosing defects, follow USDD's technical instructions, and fully cooperate in the diagnostic process. Failure to do so shall relieve USDD of any further obligation hereunder.

9.3.2. Customer shall be responsible for appropriately packing and shipping Products, to USDD for repair, and shall bear all risks and costs associated with shipping any Product to USDD for repair the same. USDD shall be responsible for, and bear all risks and costs of, returning any Product to Customer after repair or replacement, but Customer will be responsible for paying any customs or import duties payable upon receipt of any repaired or replacement Products. A replacement Product will be returned to Customer configured as it was when the Product was originally purchased, subject to applicable updates.

9.4. Return Material Authorization Process. If a Customer makes a warranty claim for a Product during the Warranty Period, the Customer shall provide USDD with the Product model and serial number and failure information to initiate the RMA process. Upon USDD's issuance of the RMA, USDD will send the replacement Product, shipped postage paid ground shipping, to the address provided by Customer. RMA requests approved between 12:00 a.m. and 2:00 p.m. Mountain Standard Time are shipped on the same business day. After 2:00 p.m. Mountain Standard Time, the replacement Product is shipped on the next business day. All RMA requests are processed on the business day on which the request was received, excluding holidays. Included with the shipped package will be return shipment instructions and a pre-paid return shipping label for the Product that the Customer is returning. The original Product must be returned in the shipping box provided by USDD. No goods will be accepted for exchange or return without a pre-approved RMA number or which have not been properly packaged in USDD's shipping box to ensure that goods are not damaged due to improper packing and the shipping process. The original Product must be shipped back within 10 days of receiving the replacement. Failure to return the original Product, or failure to return in an appropriate manner, will cause Customer to incur a replacement charge equal to full market value of the replacement Product.

9.5. No Fault Found. USDD reserves the right to charge 50% of the standard repair price if the returned Product is found to have no defect covered by the Warranty. Customer understands that this fee is intended to discourage return of Products prior to proper troubleshooting or return because the product is "old." Product returns will not be allowed if, upon examination of the returned Product, it is determined that the Product was subjected to accident, misuse, neglect, alteration, improper installation, unauthorized repair, improper testing, or poor packaging upon return. In such event, USDD shall invoice Customer for the full market value of the replacement Product.

9.6. WARRANTY EXCLUSIONS & DISCLAIMERS.

9.6.1. USDD does not warrant that the operation of its Products or any related peripherals will be uninterrupted or error-free. USDD further does not warrant nor support any system configuration that deviates from this specific quote's documented station system design file number.

9.6.2. USDD does not warrant or support any system not installed by G2 Trained & Certified Installation technician (installer). If Customer intends to tie this system into any 3rd-party system or devices, USDD will be unable to warrant or support the Products unless USDD has had a chance to review documented engineering assumptions and approve system integrity, performance, and reliability expectations.

9.6.3. USDD is not responsible for damage arising from Customer's failure to follow instructions relating to the use of the Products. This Warranty does not apply to any Products, including the hardware or software, not used for its intended purpose.

9.6.4. USDD cannot warrant nor support any system not using USDD-approved Uninterruptable Power Supply Battery Backup. This Warranty does not apply to monitors or televisions manufactured by third parties. Repair or replacement of such components shall be subject exclusively to the manufacturer's warranty, if any. Recovery and reinstallation of hardware and user data (including passwords) are not covered under this Warranty.

9.6.5. This Warranty does not apply: (a) to consumable parts, such as batteries, unless damage has occurred due to a defect in materials or workmanship; (b) to cosmetic damage, including but not limited to scratches, dents and broken plastic on ports; (c) to damage caused by use with non-USDD products; (d) to damage caused by accident, abuse, misuse, flood, lightning, fire, earthquake or other external causes; (e) to damage caused by operating the Product outside the permitted or intended uses described by USDD; (f) to damage or failure caused by installation or service (including upgrades and expansions) performed by anyone who is not a representative of USDD or a USDD authorized installer or service provider; (g) to a Product or part that has been modified to alter functionality or capability without the written permission of USDD; (h) to Software (as defined below); (i) to any other damage caused by an event or action outside of USDD's control, including, without limitation, Customer's failure to apply required or recommended updates or patches to any Software or Product; or (h) if any serial number has been removed or defaced.

- ALL PRODUCT CLAIMS ARE LIMITED TO THOSE EXCLUSIVE REMEDIES SET FORTH IN THE LIMITED WARRANTY IN SECTION 9 OF THESE TERMS AND CONDITIONS. USDD'S AGGREGATE LIABILITY IN CONNECTION WITH THEREWITH SHALL NOT EXCEED THE PURCHASE PRICE OF THE PRODUCTS PAID BY CUSTOMER TO USDD FOR THE PRODUCTS GIVING RISE TO THE CLAIM. USDD disclaims any representation that it will be able to repair any Hardware under this Warranty or make a product exchange without risk to or loss of the programs or data stored thereon.
- 11. SERVICE AGREEMENT.** The Product being purchased hereunder is not subject to any post-Warranty service agreement or maintenance program unless specifically contracted for between USDD and Customer. - 12. SOFTWARE PRODUCTS.** All software Products delivered by USDD to Customer or for which USDD provides access, including, without limitation, USDD's mobile application software and Products with embedded software or firmware (collectively, "**Software**") are not sold and are licensed. The terms of such Software License may be set forth in a separate software license agreement or end user license agreement provided by USDD with such Software. 7. This Agreement in no way restricts either party from participating in similar activities with other public or private agencies, organizations, and individuals.
8. This Agreement shall be interpreted in accordance with the plain meaning of its terms and not strictly for or against any of the Parties hereto. for all services specified in Sections 1 and 2 of this Agreement, as specified in Exhibit "A".

(B) The foregoing sum includes payment for any and all services to be rendered by Professional or sub-contractors, which the Professional may employ for this Contract. It is expressly agreed by and between the parties that the Professional is solely responsible for any and all payment to such any other professionals or subcontractors retained by the Professional.

Should the CAFMA request in writing additional services beyond that specified in Sections 1, 2, and 3, then Professional shall charge, and CAFMA shall pay Professional in accordance with Exhibit "A".

(D) Prior to the final payment to the Professional, the CAFMA shall deduct therefrom any and all unpaid privilege, license and other taxes, fees and any and all other unpaid monies due the CAFMA from the Professional and shall apply to those monies to the appropriate accounts. Professional shall provide to the CAFMA any information necessary to determine the total amount(s) due.

(E) The Professional shall bill the CAFMA monthly for the fee due the Professional, based upon an hourly rate for services/work completed for each itemized task pursuant to this Agreement and Exhibit "A" during the billing period. CAFMA shall pay such billings within thirty (30) days of the date of their receipt.

13. This Agreement is the result of negotiations by and between the parties. Although it has been drafted by the Prescott CAFMA Attorney, it is the result of negotiations between the parties. Therefore, any ambiguity in this Agreement is not to be construed against either party.
14. This Agreement shall be construed under the laws of the State of Arizona.
15. All services/work products of the Professional for this Project are instruments of service for this Project only and shall remain the property of the CAFMA whether the Project is completed or not. All plans, drawings, specifications, data maps, studies, and other information, including all copies thereof, furnished by the CAFMA shall remain the property of the CAFMA. They are not to be used on other services/work, and, with the exception of this Agreement, are to be returned to the CAFMA on request or at the completion of the services/work.
16. The parties hereto expressly covenant and agree that in the event of a dispute arising from this Agreement, each of the parties hereto waives any right to a trial by jury. In the event of litigation, the parties hereby agree to submit to a trial before the Court. The Professional further agrees that this provision shall be contained in all sub-contracts related to the project, which is the subject of this Agreement.
17. The parties hereto expressly covenant and agree that in the event of litigation arising from this Agreement, neither party shall be entitled to an award of attorney fees, either pursuant to the Agreement, pursuant to A.R.S. § 12-341.01(A) and (B), or pursuant to any other state or federal statute, court rule, case law or common law. The Professional further agrees that this provision shall be contained in all sub-contracts related to the project, which is the subject of this Agreement.
18. This Agreement represents the entire and integrated Agreement between the CAFMA and the Professional and supersedes all prior negotiations, representations, or agreements, either written or oral. This Agreement may be amended only by written instrument signed by both the CAFMA and the Professional. Written and signed amendments shall automatically become part of the Agreement, and shall supersede any inconsistent provision therein; provided, however, that any apparent inconsistency shall be resolved, if possible, by construing the provisions as mutually complementary and supplementary.
19. In the event any provision of this Agreement shall be held to be invalid and unenforceable, the remaining provisions shall be valid and binding upon the parties. One or more waivers by

either party of any provision, term, condition, or covenant shall not be construed by the other party as a waiver of a subsequent breach of the same by the other party.

20. Subject to the limitations of A.R.S. § 34-226, the Professional hereby agrees to indemnify and hold harmless the CAFMA, its departments and divisions, its employees, and agents, from any and all claims, liabilities, expenses or lawsuits as a result of the Professional's negligent acts, errors, or omissions, pursuant to this Agreement, except to the extent said claims, liabilities, expenses or lawsuits arise by the negligent acts or omissions of the CAFMA or his/her agents. The Professional further releases and discharges the CAFMA, its departments and divisions, its agents and employees, and any and all persons legally responsible for the acts or omissions of the CAFMA, from any and all claims which the Professional has or may have against the CAFMA, its agents or employees, arising out of or in any way connected with the Professional's activities as set forth below, other than those acts which occur due to the negligence of the CAFMA, its employees or agents.
21. No oral order, objection, claim or notice by any party to the other shall affect or modify any of the terms or obligations contained in this Agreement, and none of the provisions of this Agreement shall be held to be waived or modified by reason of any act whatsoever, other than by a definitely agreed waiver or modification thereof in writing. No evidence of modification or waiver other than evidence of any such written notice, waiver or modification shall be introduced in any proceeding.
22. (A) Changes in Services/work: The CAFMA, without invalidating the Contract, may order additional/extra services/work, make changes by altering, or delete any portion of the services/work as specified herein, or as deemed necessary or desirable by the Chief. All such services/work shall be executed under the conditions of the original Contract except that any claim for extension of time and additional cost caused thereby shall be made at the time of ordering such change or additional/extra services/work.
(B) Additional/extra services/work shall be that services/work not indicated or detailed on the Scope of Work and not specified. Such services/work shall be governed by all applicable provisions on the Contract Document.
(C) In giving instructions, the Chief shall have authority to make minor changes in the services/work, not involving additional/extra cost, and not inconsistent with the purposes of the services/work. No additional/extra services/work or change shall be made unless in pursuance of a written order by the Chief and no claim for an addition to the total amount of the Contract shall be valid unless so ordered.
(D) Payment for any change ordered by the Chief which involves services/work essential to complete the Contract, but for which no basis of payment is provided for herein, shall be subject to agreement prior to said services/work being performed.
(E) Adjustments to price and/or Contract Time which are agreed upon shall be incorporated in the written amendment issued by the Purchasing Division, which shall be written so as to indicate acceptance on the part of the Professional as evidenced by its signature. In the event prices cannot be agreed upon, the CAFMA reserves the right to terminate the Contract as it applies to the items in question and make such arrangements as it may deem necessary to complete the services/work, or it may direct the Professional to proceed with the items in question to be reimbursed pursuant to the unit prices in the Professional's fee proposal.
(F) If the Professional claims that any instructions involve additional/extra cost under this Contract, it shall give the Chief written notice thereof within forty-eight (48) hours after the

receipt of such instructions, and in any event before proceeding to execute the services/work. No such claim shall be valid unless so made. The Professional shall do such additional/extra services/work therefore upon receipt of an accepted Contract Amendment or other written order of the Chief and in the absence of such Contract Amendment or other written order of the Chief, the Professional shall not be entitled to payment for such additional/extra services/work. In no case shall services/work be undertaken without written notice from the Chief to proceed with the services/work. All Contract Amendments must be approved by the Chief. Contract Amendments that go over \$50,000.00 or if the contract in total goes over fifty thousand dollars must be approved by the CAFMA Council.
